

# *Our Vision for RE*

At Holy Family Catholic Primary School, the intent of Religious Education is to support children to acquire and develop a deep knowledge and understanding of their Catholic faith. This combined with the Gospel values, our school values and mission, enable children to ask and answer difficult questions. It is our intent to make R.E inviting, interesting and entertaining. It is important that R.E matters to all pupils in all year groups. It is also linked with our school curriculum and is a thread running through everything we do at Holy Family Primary School.

Our Mission Statement explains how we encourage our pupils to Live – Living, Loving, Learning as followers of Jesus Christ. We want each child to be equipped with the knowledge and understanding of a range of religions and worldviews and to respect difference. At Holy Family we encourage pupils to accept others, and be inspirational. We wish to enable our children to flourish as citizens in a pluristic and global community. As a Live Simply school we expect our pupils and staff to show commitment to the Live Simply messages and to promote love and care for our school, local community and global family and build in every opportunity to our curriculum to enable this.
