

By law children must use the correct child car seat until they are at least 135cm tall or 12 years old.

For information on choosing the right seat, visit www.childcarseats.org.uk.

Booster seats with backs are a safer option than backless booster cushions.

Fit the seat securely, in line with instructions. It's best to buy from a shop with trained fitters.

If your vehicle was in a crash, replace child car seats and adult seat belts.
