Dogs on school premises:

Dogs are an important part of family life for many in our school community and as such are often included in day-to-day activities such as walking children to and from school. However, others may find the presence of dogs in the playground and school grounds stressful, even frightening particularly with younger children. Even well-behaved dogs can behave unpredictably when placed in a busy, noisy, and crowded environment. **Consequently, dogs are not permitted to access school grounds.** The school's priority is the safeguarding of its children & staff.
